Portfolio Website

PROFESSIONAL SUMMARY

Full-Stack and Android Developer with practical experience in developing scalable web and mobile applications using React, Node.js, Kotlin, and modern backend technologies. Skilled in REST API development, database integration, responsive UI implementation, and DevOps workflows. Strong interest in software engineering, backend systems, and product-focused application development.

TECHNICAL SKILLS

Programming Languages: JavaScript, Kotlin, Python

Frontend: HTML5, CSS3, React.js, XML UI Design

Backend: Node.js, Express.js, REST APIs, MongoDB, Firebase

Android Development: Android (Kotlin), Android Studio

Tools & DevOps: Git, GitHub, Docker, Jenkins, Maven, GitHub Actions

PROJECTS

Finance Tracker

Node.js, Express, JavaScript, PDF Generation

Live Demo

- Full-stack finance tracking application with real-time expense management and downloadable PDF reporting functionality.

Cloud File Storage System

Node.js, Express, Firebase Auth, Cloudinary, Firestore

Live Demo

- Cloud-based file storage platform featuring authentication, file management, drag-and-drop uploads, and real-time search/filter functionality.

DevOps CI/CD Pipeline

Node.js, Jenkins, Docker, GitHub Actions

GitHub Repository

- Automated CI/CD pipeline integrating GitHub, Jenkins, and Docker for testing, containerization, and deployment workflows.

Attendance Management System

React.js, Node.js, Express.js, MongoDB, JWT Authentication

Live Demo GitHub Repository

- Full-stack attendance management platform with secure staff authentication and real-time attendance tracking functionality.
- Implemented role-based login system, attendance records management, and responsive dashboard UI for staff operations.
- Demo Credentials: Username – `staff@test.com` Password – `staff123`

CAT – Android App Launcher & Notes

Kotlin, Android Studio, XML UI

- Android productivity application featuring app launch management, usage tracking, and integrated note-taking capabilities.

““

EXPERIENCE

Frontend Developer Intern Dec 2025 – Jan 2026

Aruvai Institute of Learning – Tenkasi, Tamil Nadu

- Developed responsive web interfaces using HTML, CSS, and JavaScript with cross-browser compatibility optimization.
- Designed and deployed user-focused UI components using Git-based deployment workflows.
- Debugged front-end issues and improved application performance.

Java Developer Intern Jul 2025 – Aug 2025

CodeAlpha (Online Internship)

- Developed Java-based project modules following structured software development practices.
- Worked on project-oriented tasks to strengthen problem-solving and application development skills.
- Gained practical exposure to real-world development workflows and coding standards.

EDUCATION

B.Tech – Information Technology 2023 – 2027

Tamilnadu College of Engineering
CGPA: 7.72

HSC (12th) 2023

State Board – 80%

SSLC (10th) 2020

Passed

CERTIFICATIONS

- Generative AI in Action – IBM SkillsBuild (Sep 2025)
- Front End Development – Aruvi Institute (Jan 2026)
- Java Programming – CodeAlpha (Aug 2025)
